**Subject:** 476 Alger

Hello,

I spoke to Karen Shea the daughter of Lorna Shea who owns 476 Alger. Karen states that she has been working with Mike Hart from the Skunk Train on a process known as eminent domain. Karen states that Mike told her that her mother would receive some compensation for the land that would go towards her medical care. Karen also informed me of the Skunks intentions to develop a privately owner day camp on the property where people will pay to picnic, hike and explore the natural habitat. Karen is happy with the process and feels that the Skunk has good intentions of preserving the land of this almost 1-acre city lot.

Karen can be reached at (707)357-4463  
Mike Hart at [mhart@sierraenergy.com](mailto:mhart@sierraenergy.com)

I hope this information is helpful,
